

JAVA APPLICATION DEVELOPER

Position Summary

N8 Identity, Canada's leading identity and access management expert, is looking for a Java Application Developer to join its dynamic team. A member of our Engineering department, the Java Application Developer will build, improve, and support web-based Java business applications using an Agile software development methodology. In addition, the Java Application Developer will participate in every phase of the software development lifecycle, from requirements analysis through design, development, quality assurance, release, and support.

Position Responsibilities

We're looking for Computer Science or Computer Engineering graduates who love software design and development. If you're the right candidate, you'll be enthusiastic about:

- Java application platforms like the Spring Framework
- Java client-server technologies (Servlets, JSF)
- Web-based user-interface development (JSF, Facelets, AJAX)
- Software engineering and quality assurance processes
- Object oriented analysis & design
- Relational databases and query languages

Qualifications

Excellent English communication skills (both written and verbal), a strong work ethic and a positive attitude are a must. In addition, the following qualifications are required:

- University degree, college diploma or minimum 3-5 years of relevant work experience
- IAM (Identity and Access Management) and web/application security concepts and technologies experience
- Web Services and Service-Oriented Architecture experience
- Knowledge of the Spring Framework, Hibernate, and Java Server Faces
- Experience with Java application servers (Tomcat, JBoss, Weblogic, etc.)
- LDAP directories experience
- Familiarity with User interface design

What Makes N8 Identity A Cool Place to Work?

- You will never get bored in our fast-paced and challenging environment
- We are the largest dedicated IAM firm in Canada – you will work with experts at the cutting edge of the IAM industry
- We have a comprehensive benefits package and you can apply for enrollment right away
- Our Rock Band battles are legendary

N8 Identity Profile

N8IDENTITY

JAVA APPLICATION DEVELOPER

N8 Identity delivers measurable business value through identity and access orchestration. N8 Identity's Employee Lifecycle Manager™ (ELM™) platform manages identity governance through the complete lifecycle of a user within an organization: onboarding, change in responsibility, ad-hoc self-service and offboarding. This proactive process-based solution provides improved compliance, security, visibility and decision support to business managers. Augmenting its clients' existing infrastructure, ELM™ is ready-to-use and delivered as a managed service, resulting in accelerated implementation and quicker time to value. N8 Identity is a privately held company headquartered in Burlington, Ontario. For more information, please visit www.n8id.com

To Apply

While all applicants are thanked for their interest, only those chosen for interviews will be contacted.
